ABOUT ME

Senior Software Engineer with 5+ years of experience designing, building, and shipping production systems across fintech, e-commerce, and platform infrastructure. Specialized in backend development with a strong focus on microservices architecture, distributed systems, and third-party integrations. Experienced working with US-based clients and global teams. English proficiency: C1 Advanced (Cambridge CAE certified).

EXPERIENCE

Senior Software Engineer

Argentina

NocNoc

Aug 2025 - Present

- Part of the Sellers team, building the integration layer enabling sellers to connect through multiple channels: public API, Shopify, SFTP, and Seller Center.
- Owned the Amazon Scraper service, a business-critical microservice for fetching and synchronizing product data from Amazon — directly driving sales performance and marketplace reputation.
- Designed distributed rate limiting to comply with Amazon API throttling policies while ensuring high-throughput data synchronization.

Senior Software Engineer

Argentina

itti (UenoBank)

Oct 2024 - Aug 2025

- Built the Insurance Core platform from the ground up. Architected and developed the Insurance Manager microservice — the central orchestration engine for policy issuance.
- Created a generic, scalable foundation powering every insurance product launch (life, mobile, commercial, home insurance).
- Designed resilient integration layers with a legacy external provider using circuit breaker, async communication, and retry patterns.

Semi-Senior Software Engineer

Argentina

Emi Labs

Aug 2023 - Apr 2024

- Part of the integrations team at an AI-powered recruitment platform serving 50+ enterprise clients (Walmart, Coca-Cola FEMSA, Heineken) processing 12M+ conversations.
- Built the integration layer enabling US and Mexico-based clients to connect to Emi's ecosystem.
- Balanced client-specific customizations with developing a generic, scalable cross-client solution.

Semi-Senior Software Engineer

Argentina

Kavak

Jul 2022 - Aug 2023

- Worked in Kavak's fintech division (Capital), automating core banking processes — delivering directly profitable, high-impact solutions.
- Designed and built greenfield microservices across a polyglot stack: Go, Node.js (TypeScript), and Java 11+ with Spring Boot and Hibernate/JPA.
- Built full-stack solutions including backend services backed by PostgreSQL and an internal backoffice with Angular and NestJS.

Software Development Analyst → Semi-Senior Software Engineer (Promoted)

Argentina

Mercado Libre

Feb 2021 - Jul 2022

- Designed and built core components of Mercado Libre's new authorization platform — an AWS IAM-inspired, policy-based access control system in the critical path of every application at MELI.
- Developed multi-language SDKs (Java, Go, Python, Node.js) and a Docker-based sidecar deployment model for internal engineering teams.
- Services handled massive traffic volumes impacting millions of users. On-call rotations for production incident response.

Fullstack Software Engineer

Technisys

Argentina

Oct 2020 - Jan 2021

- Worked in a globally distributed, multicultural team — the first at Technisys to deliver a project for a North American client.
- Contributed to adapting the company's core banking platform to meet US market requirements. All collaboration in English across multiple time zones.

Engineering Associate

Southworks

Argentina

Apr 2020 - Oct 2020

- Built greenfield applications from scratch for Discovery Channel (US). All communication and Agile ceremonies in English.
- Microservices architecture, backend development with Node.js and TypeScript, infrastructure with Pulumi on AWS, CI/CD with CircleCI, monitoring with Datadog and CloudWatch.

Freelance Software Developer

Independent

Argentina

2019 - 2020

- Independently designed and developed Zeppelin Pedidos (zeppelinok.com), a web application for a local delivery company.
- Owned the entire SDLC end-to-end. Built from scratch using Angular, TypeScript, and Firebase (Cloud Firestore, Realtime Database, Hosting, Auth).

EDUCATION

Universidad Nacional de La Plata (UNLP), Argentina

2017 - 2024

B.S. in Information Systems (Licenciatura en Sistemas) — GPA: 3.6/4.0

Universidad Nacional de La Plata (UNLP), Argentina

2017 - 2020

University Programmer Analyst (intermediate degree) — GPA: 3.5/4.0

CERTIFICATIONS

AWS Certified Cloud Practitioner, Amazon Web Services

2020

Certificate in Advanced English (CAE) — C1, University of Cambridge

2016

First Certificate in English (FCE) — B2, University of Cambridge

2015

HSK Level 3 — Mandarin Chinese, Hanban Confucius Institute

2018

HONORS & AWARDS

Outstanding Freshman Award, UNLP

2017

Academic Merit Award, UNLP

2018, 2020
